SUPPLEMENTAL RESPONSE

In response to the Notice to Comply With Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, dated March 5, 2002, Applicants submit a copy of the attached Supplemental Response to Notice to File Missing Parts and a copy of a Preliminary Amendment, both filed October 9, 2001.

In this supplemental response, Applicants requested that a prior filed sequence listing from the parent case be transferred to the present case. The last filed computer readable form filed in the parent case (Application No. 09/457,046) was accepted as fulfilling the requirements of 37 C.F.R. § 1.822 and/or § 1.823. Therefore, the same computer readable form as transferred to the present case (Application No. 09/866,570) should also comply with the requirements of these same rules.

If a telephone conference would help expedite any remaining issues regarding the sequence listing, the Examiner is invited to telephone the undersigned Applicant's representative at the number listed below.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP

PRELIMINARY AMENDMENT

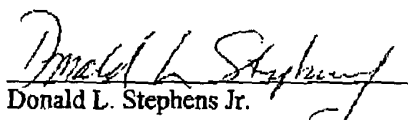

COMMISSIONER FOR PATENTS
Washington, DC 20231

Applicants request that the above-referenced application be amended by incorporating by reference the enclosed paper copy of the Sequence Listing, intended to replace the previously filed paper copy of the Sequence Listing.

The enclosed paper copy of the Sequence Listing is identical to the last-filed computer-readable copy of the Sequence Listing filed in the parent application 09/457,046 (filed on 7 December 1999, which issued as U.S. Pat. No. 6,287,835 on 11 September 2001, and of which the instant application is a divisional). No sequence information has been added to or deleted from the enclosed paper copy. Therefore, this Preliminary Amendment does not affect the scope of the pending claims, and does not introduce any new matter.

Respectfully submitted,

KLARQUIST SPARKMAN CAMPBELL
